SUMMARY

Full-stack web developer with 3+ years of experience designing, building, and deploying production-grade applications end to end. Front end in React, Next.js, and TypeScript; back end in Node.js, Express, and NestJS with PostgreSQL, MongoDB, and Redis. Experienced in REST API design, authentication and authorization, database modeling, and shipping to production on Docker/Nginx VPS infrastructure. Proven record of owning features across the entire stack, from schema design and API architecture to responsive, high-performance UIs (PageSpeed 95+), in fast-paced startup environments.

SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, SQL, HTML5, CSS3

Front-End: React.js, Next.js (SSR/SSG), Tailwind CSS, Redux, Zustand, Responsive Design, Web Accessibility (a11y), Cross-Browser Compatibility

Back-End: Node.js, Express.js, NestJS, REST API Design, Authentication & Authorization (OAuth 2.0, JWT, Session & Cookie Management), RabbitMQ (message queues), Web Scraping (Selenium, BeautifulSoup)

Testing: Jest, React Testing Library, Unit & Integration Testing

Databases & ORM: PostgreSQL, MongoDB, Redis, Prisma, Database Modeling & Schema Design

DevOps & Infrastructure: Docker, Nginx, CI/CD, VPS Administration (DigitalOcean, Contabo), Vercel, Netlify

Tools & Workflow: Git, GitHub, npm (private package publishing), Webpack, Vite, Agile/Scrum, AI-assisted development (Claude Code, Cursor)

Performance & SEO: Core Web Vitals, PageSpeed Optimization, Lighthouse, Technical SEO

EXPERIENCE

GCB Holding, Full-Stack Engineer | 12/2025 – Present | Morocco, Remote

- Building Kingdom Market, a multi-country travel platform serving 13 countries, delivering 20+ production-ready features across the stack using React, Next.js, TypeScript, and REST API integrations, with a scalable, modular component architecture.
- Developed automated hotel data extraction pipelines in Python (Selenium, BeautifulSoup), collecting hotel, room, pricing, image, and location data from travel platforms and feeding it into the platform's listing data layer.
- Increased Google PageSpeed scores from 58 to 95+ through code splitting, image optimization, and render-path improvements, directly improving Core Web Vitals and load times.
- Raised technical SEO scores from 60 to 95+, improving search visibility, crawlability, and organic traffic readiness across key landing pages.

Antopolis, Full-Stack Engineer | 04/2024 – 12/2025 | Dhaka, Bangladesh

- Built and maintained the multi-branch management platform for Emerald Restaurant, an 18-branch restaurant group, with responsive admin and branch applications used daily by staff and administrators across all locations.
- Consolidated 4 separate APIs into a single unified API layer, reducing network overhead and latency and improving response efficiency across client applications.
- Led front-end architecture and UI/UX implementation for production systems, enforcing coding standards and delivering reliable, responsive interfaces.
- Collaborated on stable REST API integration with back-end teams and contributed to architectural decisions and system design improvements.

Self-Employed (Freelance, concurrent), Full-Stack Web Developer | 01/2023 – Present | Dhaka, Bangladesh

- Built and delivered 8+ production web applications end to end, covering requirements analysis, UI design, API and database design, development, deployment, and hosting on VPS infrastructure.
- Architected and launched the consumer platform and admin panel for Hotel Manha Ltd, a 3-star hotel in Dhaka, using Next.js with server-side rendering, database modeling, and end-to-end system design.
- Partnered with multiple startups to ship SaaS products and internal business tools, translating business requirements into front-end architecture, REST APIs, and database structures from MVP to production.
- Managed deployment and hosting across VPS and cloud infrastructure (Docker, Nginx), optimizing SSR, PageSpeed, and Core Web Vitals to keep production environments fast and stable.

EDUCATION

BA (Honours) in English Literature | 07/2022 – Expected 12/2026 | Dhaka, Bangladesh

Degree-level written and spoken English.
